CHOPTANK RIVERKEEPER®

CREB Conservancy is a non-profit organization dedicated to the restoration and protection of the Choptank River watershed, Eastern Bay, and the Miles and Wye Rivers. We serve as an advocate for the health of these tributaries, and support education, outreach, and restoration programs that promote environmental awareness of the importance of these rivers to the community, of the issues that threaten their vitality, and of the solutions that must be implemented to preserve them.

The conservancy's Choptank RIVERKEEPER® provides on-the-water vigilance and, as a member of the WATERKEEPER® Alliance, works to fight pollution and to strengthen and enforce environmental laws and regulations.
